

So Why Spend a Fortune Replacing Your Leaky Roof?

Stop Leaks Conklin's 100% acrylic and VOC compliant coatings prevent leaks where they occur most- at the seams. Your entire roof is protected by a durable, waterproof finish.

Save Energy

Save money on air conditioning. The energy saving, Acrylic-Coating System keeps your building cooler whether its air conditioned or not by reflecting up to 85% of the sun's UV rays.

*MR Coatings System
for existing Metal Roofs*

Seal and Protect It with One of Conklin's Three Different Coating Systems

Save Money It costs less to repair your roof than to replace it. Because you don't have to tear off your old roof, there are no waste disposal costs and your building's contents are never exposed to the elements.

*Foam & Coatings System
for existing BUR Asphalt Roofs*

Alternative to Tar and Roll Roofing with Great Benefits
